

God On High

Words & Music by
Mike R. Schuster

God of all creation; Maker of the stars
Words cannot express how powerful You are
You set the earth in motion, placed each star that's in the sky
Yet You stoop to listen to us; You hear our faintest cry

(So) Hear our praise, God on high, as we lift our voices
This song we raise, God on high, and declare our choices
We worship You, only You, God on high

[solo]

The grandeur of the mountains, and the flowers in the fields
The vastness of the ocean, and the way that makes us feel
Reminders of your power all around for us to see
You created everything, and meet our deepest needs

(So) Hear our praise, God on high, as we lift our voices
This song we raise, God on high, and declare our choices
We worship You, only You, God on high

(So) Hear our praise, God on high, as we lift our voices
This song we raise, God on high, and declare our choices
We worship You, only You, We worship You, only You,
God on high... (*ad lib.*) God on high.
